RO'ZIMUHAMMADKHON ARTIKOV

FRONTEND / FULL STACK JUNIOR DEVELOPER

+998 99 817 47 46 | artikovrozik52@gmail.com | Tashkent, Uzbekistan | GitHub: Artikov-dev | LinkedIn: ArtikovDev

Brief information about myself

I have more than one year of practical experience in frontend and backend development. I possess confident knowledge of modern web technologies and frameworks, paying particular attention to the creation of dynamic and responsive web applications.

I have gained experience working effectively in a team, led frontend processes in small teams and actively participated in the development of web applications. I took part in hackathons, which allowed me to develop the skills of fast decision-making and effective problem solving under limited time conditions.

I expanded my knowledge in the field of mobile development (Kotlin, Java) and backend technologies (FastAPI), taking part in the creation of complex applications using modern technologies. I have worked in professional teams, constantly improving my skills and developing as a specialist in the field of software development, open to learning, innovation and professional growth.

EDUCATION AND CERTIFICATES

PDP University Bachelor's Degree (in progress) **September 2024 — Present**

Field of study: Information and Digital Technologies

Specialization: Software Development and Programming (Full Stack Web Development)

TECHNICAL SKILLS

Frontend and Backend: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Node.js, Express.js, FastAPI (basic level). **State management:** Zustand. **Databases:** PostgreSQL, SQL. **Tools:** Git, GitHub, Postman, REST API Integration, Responsive Design

PERSONAL SKILLS

Teamwork and project management
I worked in small teams, including a project team of six people, participating in the coordination of processes and in frontend development. Taking part in hackathons strengthened my skills of fast decision-making and effective solving of complex tasks.

Leadership qualities
I took part in organizing the work process, coordinating tasks and increasing the efficiency of the team's work.

Mentoring and knowledge sharing
I taught more than 20 students the basics of programming and web development, developing the skills of communication and explaining complex technical topics.

Continuous learning and self-development
I constantly improve my knowledge in the field of frontend development (React, TypeScript) and backend development (FastAPI).

Mobile development and cross-platform thinking
I am studying the basics of mobile development (Kotlin, Java), which helps to form a broader understanding of the development of cross-platform applications.

Problem solving and optimization
I analyze the tasks that arise during the development of web applications and find effective solutions aimed at improving the quality of the product.

Clean architecture and performance optimization
I have practical experience in applying the principles of Clean Architecture, optimizing code and increasing the performance of web applications.

WORK EXPERIENCE

Frontend Developer | Lova Company November 2024 – January 2025 (3 months)

- Participated in the development and support of web applications in the role of Frontend Developer.
- Created responsive user interfaces using HTML, CSS and JavaScript.
- Worked with backend APIs and handled the integration of the frontend part with server-side logic.
- Together with the team, optimized existing functionality and increased the performance of applications.

Frontend Mentor PDP Junior **July 2025 — September 2025 (3 months)**

- Conducted practical classes on frontend development for more than 20 students.
- Taught project development using HTML, CSS and JavaScript.
- Helped students develop programming skills and solve practical tasks.
- Gained experience in organizing an effective collaborative educational environment.

Frontend Developer | MohirLab Inc. December 2025 — April 2026

- Participated in the development of web applications and the support of existing projects.
- Created and optimized user interfaces using React and JavaScript.
- Performed API integration and ensured stable interaction between frontend and backend.
- Together with the team, worked on developing new features and fixing bugs.

Education Quality Control Specialist | PDP University 2026 (3 months)

- Worked in the department of quality control of the educational process.
- Participated in monitoring academic processes and preparing analytical reports.
- Performed analytical tasks aimed at improving internal educational systems.

Frontend Developer Intern | Anorbank *3 months*

- Worked with TanStack Query for managing server data and handling API requests.
- Studied and applied modern frontend development tools and libraries.
- Participated in API integration and processing of received data on the client side.
- Worked with asynchronous requests, loading states and error handling.
- Gained practical experience in developing frontend solutions in the banking sector.
